Introduction

Background & Objectives
The SBE Council commissioned the study to gain insights from small business owners about current economic and business conditions and policy related issues.

Survey Sample
✓ Online Survey Methodology
✓ Sample size - 535 completes
  • TechnoMetrica used its network of panel partners for the sample.
✓ Credibility interval - +/-4.3 percentage points

Methodology
✓ Survey Conducted
  • August 23 – August 25, 2023
✓ Median Length of Interview
  • 9.45 minutes
✓ Qualification Criteria
  • Small business owners
  • Employee size = 2 to 99
Findings - Overview

Business Environment

- Most businesses believe the current business environment is generally positive. Specifically, 21% consider it excellent, 42% rate it as good, 25% find it average, and 13% feel it is poor or unacceptable.

- A significant portion (38%) anticipate worsening economic conditions in the next six months. In contrast, 22% expect conditions to improve, and 36% predict them to remain about the same.

- Nearly half (49%) expect their business's financial position to remain unchanged in the next six months. 36% anticipate improvement, while 12% foresee a worsening financial condition.

- On the matter of federal policies with regard to small businesses: 10% are very satisfied, and 39% are somewhat satisfied. 45% express dissatisfaction, with 24% being not very satisfied and 21% not at all satisfied.

- Inflation (57%), economic uncertainty (32%), recession/slowdown (32%), rising interest rates (22%), and high gas prices (21%) are the top 5 concerns for small businesses.

- Almost nine in ten (89%) express concerns about inflation over the next twelve months. Similarly, nearly nine in ten (86%) are concerned about an economic slowdown or recession.
Findings - Overview

- In describing the outlook on economy for the remainder of 2023, 61% say the economy will deteriorate, 20% say it will be stable, and 14% note it will improve.

- Small business owners say that inflation, rising interest rates, gasoline prices, energy and transportation costs, labor and benefit costs, and supply chain disruptions have had a negative impact on their businesses.

**Labor Market and Employment:**

- Two-thirds (66%) describe the current labor market as fair or poor. Regions in the South and West show stronger intent to increase employment. Nearly one-half (48%) of small businesses report that labor shortages and limited access to skilled labor are hampering operating capacity.

**Credit and Capital Availability:**

- Two-thirds (62%) rate credit availability as fair or poor, with 33% considering it excellent or good. Almost half (49%) believe the lack of credit or access to capital is hampering their operations.
Findings - Overview

Sales and Profitability in 2023:

- 52% report that their revenues have not kept pace with inflation, while 42% indicate their revenues have kept up. A majority (59%) are cutting expenses; travel, big-ticket items, new hiring, and marketing are the top categories facing the cut.

- One-thirds (35%) experienced decreased sales in 2023, with 40% noting increased sales and 23% reporting steady sales. Similarly, 42% reported decreased profitability, while 34% experienced improved profitability.

- Majority (53%) expect a stable business outlook for the rest of 2023. Meanwhile, 29% expect improvement, and 14% anticipate a deterioration. However, most are pessimistic about the economy for the rest of 2023.

- Nearly three-fourths (72%) are optimistic about their business's survival over the next two years. 26% rate their chances as excellent, 46% as good, and 22% as fair.
Findings Overview

President Biden

- Small business owners don’t think highly of President Biden's performance on key issues.
- Combating inflation receives failing grades from 70%, while only 14% rate his efforts positively.
- Management of government spending is similarly unfavorable, with 63% giving low grades and only 16% offering high ratings.
- Over six in ten (62%) are dissatisfied with President Biden's handling of the economy, compared to 20% who rate him favorably.
- On taxes, 58% assign failing marks, while 15% view his performance positively.
- U.S. competitiveness with China sees 56% giving failing grades and just 18% rating him favorably.
- Over half (56%) give failing grades for Biden’s Immigration policy. 21% give him good grades.
- 55% assign failing grades for his Energy policy and costs, while 22% give him good grades.
- Another 54% award failing grades for Health insurance and healthcare costs, while 22% give favorable ratings.
Findings Overview

President Biden (Continued)

- *Regulations* efforts are considered unsuccessful by 53%; 20% rate them favorably.
- Addressing the *labor shortage* earns dissatisfaction from 50%, but 23% are satisfied.
- *Access to capital and credit* receives positive grades from 18%, with 26% rating him as average and 50% giving failing grades.
- On the issue of *national security*, only 29% give Biden positive grades, while 47% rate him poorly.
- *Small business friendliness* is another concern, as 46% assign a failing grade and 25% rate him favorably.
- Overall, small business owners express significant dissatisfaction with Biden's performance, with 37% assigning an "F" and 20% a "D." Positive ratings are fewer, with only 6% giving an "A," 15% a "B," and 21% a "C."
- Two-thirds blame the Biden administration for rising gas prices. 40% state the administration is *very responsible*, and another 25% say it is *somewhat responsible*. 

Small Business Checkup Survey (Q3-2023)
Findings Overview

Technology Platforms For Branding And Income Generation

- Small business owners (59%) say Facebook is the most crucial platform for branding and income generation.
- Instagram, Amazon, and LinkedIn are also important platforms for branding and income generation.
- Small businesses also use other platforms like YouTube, TikTok, eBay, Twitter, Shopify, and Walmart.
- Social media and technology platforms contribute to 22% of total sales for surveyed small businesses.

Amazon’s Role In Small Business Sales

- One in five (22%) of small businesses surveyed sell products on Amazon.
- Amazon accounts for 23% of total sales for its users.
- Amazon users also utilize their websites (69%) and social media platforms (64%) for sales.
- Small businesses utilize other tech platforms (41%), brick-and-mortar storefronts (35%), buy online, pick-up-in-store (BOPIS) (23%), and larger company platforms like Walmart (16%).
- Nearly 80% of small businesses relying on Amazon expect negative impacts from potential FTC action.
- Concerns include sales disruption (31%), employee layoffs (22%), loss of customer base (17%), potential business closure (16%), and increased sales/marketing costs (15%).
Detailed Findings
Most Businesses Believe The Current Business Environment Is Generally Positive

- One in five, or 21%, say that the current business environment is excellent.
- Another two in five, or 42%, say it is good.
- But, one-fourth, 25%, rate the business environment as average.
- 13% think the business environment is poor or unacceptable.

Q1. Generally speaking, how would you describe the current business environment?
38% Anticipate Economic Conditions To Worsen In The Next Six Months

• A fifth (22%) expect the economic conditions in the country to be better in the next six months.

• However, two in five (38%) foresee the conditions worsening.

• More than a third (36%) predict that the conditions will remain about the same.

Q2. In the next six months, do you think that economic conditions in the country will be better, worse, or about the same as now?
Nearly Half Anticipate Business Financial Position to Remain Unchanged

- One in three (36%) anticipates their business's financial position to be better in the next six months.
- Almost half (49%) foresee it remaining the same.
- However, 12% believe their business's financial condition will worsen in the near future.

Q3. In the next six months, do you think that your business's financial position will be better, worse, or about the same as now?

Q24b: How would you describe the outlook for the remainder of 2023 for the Economy?

Small Business Checkup Survey (Q3-2023)
Most Small Businesses Anticipate a Stable Business Outlook for the Remainder of 2023

- The sentiment of stability is shared across all regions.
- Half (53%) of small business owners describe the outlook for their businesses for the remainder of 2023 as stable.
- Meanwhile, 29% expect improvement, and 14% anticipate a deterioration.

Small Business Checkup Survey (Q3-2023)
Nearly Three-Fourths Are Optimistic About Their Survival In The Next Two Years

- Small businesses are optimistic about their survival in the coming two years.
- 26% rate their chances as excellent and 46% as good.
- However, one-fourth (22%) say their odds are only fair.
- A handful (4%) see their chances of surviving the present business conditions as poor.
- One percent said their business will not survive.

Q23. How would you describe your business’s chances of survival over the next year or two?

Small Business Checkup Survey (Q3-2023)
The Top-3 Economic Issues Facing Small Businesses Are Inflation, Economic Uncertainty, And Recession

- From a list of 15 options, small business owners chose their top 3 issues: Inflation (57%) took the lead as the primary economic concern, followed by Economic uncertainty (32%) and Recession (32%).

- The second tier of concerns included Rising interest rates (22%), Gasoline prices (21%), and Supply chain issues (20%).

Q7. What are the top-3 economic issues facing your business?
Inflation, Rising Interest Rates, Gasoline Prices, And More Take A Toll on Businesses

Out of the ten listed factors, a majority of small business owners identified six as having a negative impact on their businesses: Inflation, Rising interest rates, Gasoline prices, Energy and transportation costs, Labor and benefit costs, and Supply chain disruptions.

Over eight in ten, or 81%, stated that inflation had a negative impact on their businesses, with 44% describing it as very negative and another 37% as somewhat negative.

Rising interest rates held the second spot at 67%, closely followed by Gasoline prices at 62%.
More than one-half (58%) of small businesses complain that energy and transportation costs have negatively impacted their businesses.

Meanwhile, 56% reported that labor and benefit costs (i.e., health coverage) are a burden.

Another 55% state that supply chain disruptions have negatively impacted their businesses.

Under one-half reported a negative impact from access to credit and capital (48%), labor shortages (45%), new regulatory threats (40%), and foreign competition (23%).
Two-thirds describe the current labor market as **only fair or poor** (66%) – with 43% considering it **only fair** and 23% rating it as **poor**.

In contrast, one-third (32%) say it is **excellent** or **good**, including 5% who consider it **excellent** and 27% who rate it as **good**.

**Q11. How would you describe the current labor market in terms of how easy it is to find the people you need?**
Small Businesses In The South And West Lead In Intent To Increase Employment

- Regionally, 26% of businesses in the Northeast, 29% in the Midwest, 31% in the South, and 35% in the West plan to increase employment.

- Meanwhile, 17% in the Northeast, 9% in the Midwest, 11% in the South, and 12% in the West plan to decrease employment.

---

**Q12: Do you expect to increase or decrease the number of people working for you over the next six months?**

- Overall:
  - Not sure: 5%
  - No change: 53%
  - Decrease: 12%
  - Increase: 31%

- Northeast:
  - Not sure: 4%

  - Increase: 31%

- West:
  - Not sure: 6%
  - No change: 51%
  - Decrease: 12%
  - Increase: 35%

- Nearly half (48%) report that labor shortages are hampering their operating capacity, with 12% strongly agreeing and 36% agreeing somewhat.
- Meanwhile, 47% believe that labor shortages have not impacted their operating capacity.

Q13. Please indicate how much you agree or disagree with the statement. A labor shortage and access to skilled labor is hampering my company’s operating capacity.
Nearly Two-Thirds Rate The Availability Of Credit Or Capital As Fair Or Poor

- Three in five (62%) are experiencing the effects of a credit squeeze.
- Among them, 40% describe credit availability as only fair, and 22% say it is poor.
- However, one-third rate it as excellent or good, with 6% considering it excellent and 26% marking it as good.

Q15. How would you describe the availability of credit or capital these days?
Half Of Small Businesses State Lack Of Credit Or Access To Capital Is Hampering Operating Capacity

- Nearly half of small businesses (49%) are feeling the effects of a credit squeeze.
- 12% strongly agree that the lack of credit is hampering their operating capacity, while 37% agree somewhat.
- However, 46% disagree that credit is hampering operating capacity, with 19% strongly disagreeing and 27% disagreeing somewhat.

Q16. Please indicate how much you agree or disagree with the statement. The lack of available credit or access to capital via lending and other sources is hampering my company’s operating capacity.
Most Say Revenues Have Not Kept Pace With Inflation

- 52% report that their revenues have not kept pace with inflation.
- 42% report that their revenues have kept pace with inflation.

Q18. Have your revenues kept pace with inflation?
Slashing Spending Is Common Among Small Businesses

- Most small businesses have been careful with their resources in this environment. In fact, 59% are cutting expenses.
- However, 36% report they have not cut spending despite increased raw material and labor costs.

Q19. Due to the higher costs for raw materials, labor, and other inputs, are you cutting back on your business spending or not?
Travel, Big-Ticket Items, New Hiring, And Marketing Are Top Categories For Cutbacks

- Travel (51%), Big ticket items (51%), New hiring (48%), and Marketing (26%) are top areas of reduced spending.
- Charity giving (40%) and Memberships/subscriptions (34%) are also getting cut.

Q20. Which of the following activities have you cut back? Base=Those who have cut (n=311)

- Travel: 51%
- Investment in equipment/technology/big-ticket items: 51%
- New hiring: 48%
- Marketing/business development expenses: 43%
- Charity giving: 40%
- Memberships/subscriptions: 34%
- Employee benefits: 19%
- Office space: 18%
- Payroll: 17%
- None: 1%
Nearly Nine In Ten Concerned About Economic Slowdown/Recession

- Small businesses are worried about a slowdown/recession.
- 44% are very concerned, and another 42% are somewhat concerned.
- Only a handful (13%) are not concerned.

Q6. How concerned are you about an economic slowdown/recession in the United States over the next twelve months?
Two-Thirds Blame The Biden Administration For Rising Gas Prices

- 65% blame the Biden administration for rising gas prices.
- 40% state the administration is very responsible, and another 25% say it is somewhat responsible.
- However, 30% does not hold the current government responsible for the high prices.

Q25. How responsible is the Biden administration for rising gas prices?
Most Small Businesses Give President Biden 'D' or 'F' on 10 of 13 Tested Issues

- A staggering 70% give the President failing grades for combating inflation, while only 14% give him good grades.
- Similarly, 63% give low grades for his management of government spending, whereas 16% rate him highly.
- Another 62% are dissatisfied with Biden's handling of the economy, with only 20% giving him favorable ratings.
- In the area of taxes, over half (58%) give him failing marks, while 15% view his performance positively.
- Furthermore, 56% assign failing grades to the President's approach to U.S. competitiveness with China, while 18% rate him favorably in this aspect.
